BACK PAINTED GLASS FINISHES

PAINTED LACQUER FINISHES

All our furniture is lacquered with a 10% clear (matt) gloss level as standard. For veneered components only alternative gloss levels up to 40% (gloss) are available upon request for an additional charge of 2% on each furniture item specified. Polishing to a customer's own preferred colour can be specified for an additional charge of 5% on each furniture item specified. Note: in both these cases (if required) a sample colour board will be made in advance of the order to confirm the finish. Our lacquer finish meets the requirements of the FIRA standard 6250:2005 heavy/severe use for horizontal surfaces (excluding kitchen worktops). This lacquer is formulated to provide outstanding resistance to abrasion and will withstand normal daily use. Please refer to the cleaning instructions provided with the furniture. Please note that scratches will be more apparent on a darker veneered finish and more noticeable on painted surfaces.

All our veneers and timbers are sourced sustainably but in some instances we may not be able to offer a full FSC chain of custody.

The finishes and veneer colours shown in this document are a representation and to be used as a guide only. Veneer and solid timber are natural materials, prone to shade and pattern variation. Please contact a member of our sales team on 01494 524222 for physical samples or for additional advice regarding veneer and finish selection.

All FSC certified unless marked \*
